To all 9th grade students and families

Dear all,

a 9th grader tested positive to a rapid antigen test.

As per "Ordinanza 26 del 30/12/2021 del Presidente della Regione Lazio" a positivity by rapid antigen test does not need to be confirmed by a molecular test.

Given the positive case in the grade, as per decree DL n.1 7/01/2022, the whole grade will be in AUTOSORVEGLIANZA (self-surveillance) until Wednesday 26th of January. For the details of Autosorveglianza see the bullet points below. **Until the 31st January students will need to wear an FFP2 mask at all times, and will need to consume meals by themselves.**

Given that a Covid-19 test is recommended at day 5, we have decided to move the internal screening at school of 9th graders from the 24th to the 26th of January.

During the first 5 days, our medical director, Dr. Andrea Guerriero, recommends:

- FFP2 masks need to be used at all times, also out of school;
- contact sports and team sports must be avoided (if not school-related, please inform your coach and check with your club);
- during the first 5 days of the Autosorveglianza (until the 26th January) students and teachers will pay particular attention to symptoms like fever, sore throat, runny nose, cough, any gastrointestinal symptoms, body aches, chills, headache and, if they develop any of these symptoms, should immediately test for Covid-19 (a rapid antigen test will be enough) and notify the school at nurse@sssrome.it with the Covid manager fabio.boccuni@sssrome.it. This is really important, as with three positive cases the grade will need to go in remote learning;

Please note that even if students have symptoms and they test negative, they should be symptom-free for 48 hours before returning to school. If they are absent for more than 5 days (including these 48 hours), a medical certificate for readmission will be required by regional laws.

--

Fabio Boccuni
Assistant Head and Covid Manager
